

The disclosure was objected to because of informalities on pages 1 and 2. Applicant has amended the specification to correct the informalities cited by the Examiner. Applicant complied with the Examiner's instructions despite the fact that, with regard to the objection of the work "Description" found on page 2, line 1, Applicant's copy shows that the word "Description" was spelled properly and was not missing the letter "e" as indicated by the Examiner's objection.

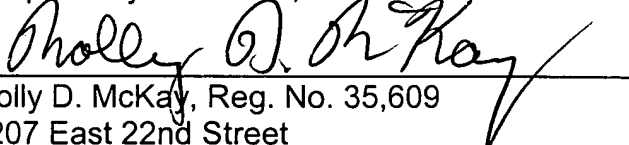

The Examiner rejected Claim 1 and Applicant has deleted Claim 1 from the application.

Applicant gratefully acknowledges that the Examiner has objected to Claims 2-12 as being dependent upon a rejected base claim, but states that these claims would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Applicant has rewritten these claims in accordance with the Examiner's directions.

It is believed that this application is now in condition for allowance, and such action is earnestly solicited.

The Commissioner is hereby authorized to charge any additional fees to the deposit account of the undersigned, No. 13-0470.

Respectfully submitted,
